If you're looking for a trendy but affordable hotel in NYC, The [Thompson LES](#) is a great choice.

Whenever I try to book luxury hotels, I usually skip the typical sites like *Travelocity* and *Expedia* and opt for companies that only choose good hotels. There are several members-only sites to choose from including

[Jetsetter.com](#)

,
[Vacationist.com](#)

,
[Tablethotels.com](#)

and

[Sniqueaway.com](#)

to name a few. For this particular trip, the plan was to stay only one night in the city to hang with friends that were flying in from Cincinnati and Chicago. After checking out a few different options on

Jetsetter

like the

Dream Hotel

, the

James New York

, and

The Hotel on Rivington

. I settled on the

[Thompson LES](#)

which stands for Lower East Side (in case you were wondering.) What really drew me to the

Thompson LES

was not only the location but also the ability to book a King Suite with a Sofabed for virtually the same price as the other regular rooms I was viewing online. Since there were three of us sharing a room, this was a win/win situation.
